DIRECTORS' REPORT FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2012

The Directors of Packages Limited are pleased to submit to its shareholders, the nine months report along with the condensed interim un-audited financial statements of the Company for the period ended September 30, 2012.

Significant events impacting the Company

To enable continuous growth and technical development in the Paper & Paperboard segment, the Board of Directors of Packages Limited have signed an agreement on September 17, 2012 with "Stora Enso OYJ Group" (Stora Enso) of Finland entering into 50/50 Joint Venture in its 100% wholly owned subsidiary "Bulleh Shah Packaging (Private) Limited" [formerly "Bulleh Shah Paper Mill (Private) Limited"] ('BSPL'). This Joint Venture Agreement would enable greater focus on Paper & Paperboard and Corrugated businesses which are integrally linked and have different capital and technology requirements as well as market focus as compared to Packaging and Consumer Products businesses. It will also enable access to Stora Enso's technology as well as using its platform for exports.

The Joint Venture covers Paper & Paperboard and Corrugated businesses operational at Kasur Mills and Karachi and will involve initial equity participation of Stora Enso of 35% by way of subscription of right shares with a commitment to increase the shareholding to 50% at a later stage subject to certain conditions being met. The agreed value for 100% of the Joint Venture Company is USD 107.5 million on a cash and debt free basis with additional equity to be subscribed by Stora Enso through right shares in the Joint Venture Company of USD 17.5 million based on the financial results of H2-2012 and H1-2013. Packages Limited shall continue to hold minimum 50% ownership and would be entitled to future proportionate profits of the Joint Venture. Accordingly, the Company's operations have been divided into Continuing and Discontinued operations for financial reporting purposes. Paper & Paperboard and Corrugated businesses have been recognised as Discontinued operations with respect to Packages Limited because these will form part of the Joint Venture into BSPL.

The results of Continuing operations include Folding Cartons, Flexible Packaging and Consumer Products Divisions that will continue to be part of Packages Limited on a stand alone basis.

Financial and Operational Performance

The comparison of the un-audited results for the period ended September 30, 2012 as against September 30, 2011 is as follows:

00, 2011 15 45 1010 \$3.	For the th	ird quarter	Cumu	lative
	July - Sep	July - Sep	Jan - Sep	Jan - Sep
	2012	2011	2012	2011

Discontinued operations				
Loss after tax	(2,633)	(391)	(3,213)	(1,148)
Basic earnings per share -Rupees	(31.20)	(4.64)	(38.07)	(13.61)

Continuing Operations

During the first nine months of the year 2012, Continuing operations have achieved net sales of Rs. 8,482 million against net sales of Rs. 8,699 million of corresponding period of last year. Operations have generated EBITDA of Rs. 768 million during nine months of 2012 against Rs. 927 million generated during corresponding period of 2011.

The Company has also recognised reversal of impairment amounting to Rs. 360 million during the first nine months of 2012 on its investments held in IGI Insurance Limited and IGI Investment Bank Limited on the basis of recovery in recoverable amount.

Investment income has increased by Rs. 365 million during first nine months of 2012 over corresponding values of 2011 that is indicative of improved operational performance of the investee companies.

As part of its efforts to remain abreast of improved technological developments in the Packaging business, the Company has invested in a New Rotogravure Machine for its Flexible Packaging Business with total estimated project cost of Rs. 500 million. The machine is under installation and is expected to be operational by the current year-end. It would serve growing needs of the Company's customers. Packaging operations are fully geared up to meet enhanced customers' requirements and are also actively pursuing cost control initiatives to improve bottom line results.

Consumer Products Division has registered sales of Rs. 1,487 million during the first nine months of 2012 as compared to Rs. 1,670 million of the corresponding period of 2011. This decline in revenue is attributable to the unfortunate fire incident that occurred towards the end of 2011. Despite decrease in sales by 11%, the Division has managed to improve its operating earnings by 25% through effective cost control measures. The Company has actively pursued on re-commencement of operations and all the critical machines including Facial Tissue, Toilet Roll, Table Napkin, Paper Cup and N-Fold machines have been installed and have commenced commercial operations. Moreover, the Company is also regaining its market share through its rigorous marketing strategies and is expecting to offset the revenue loss in future months with improved operating results.

The production statistics for the period under review along with its comparison with the corresponding period are as follows:

	July - Sep 2012	July - Sep 2011	Jan - Sep 2012	Jan - Sep 2011
Consumer Products produced-tons	2,393	2,628	6,279	7,412
Carton Board & Consumer Products converted-tons	7,565	7,792	21,408	25,335
Plastics all sorts converted-tons	3,272	3,035	10,096	9,598

Discontinued Operations

Paper & Paperboard and Corrugated businesses have been recognised as Discontinued operations with respect to Packages Limited pursuant to the signing of Joint Venture Agreement with Stora Enso. Discontinued operations have achieved external sales of Rs. 6,776 million during the first nine months of 2012 as against Rs. 6,161 million achieved during corresponding period of the year 2011 representing 10% top line growth. Operating results have also indicated improvement as Discontinued operations have sustained an Operational Loss After Tax of Rs. 756 million during first nine months of 2012 as against Operational Loss After Tax of Rs. 1,148 million incurred during corresponding period of 2011. This improvement is primarily attributable to greater flexibility exercised after re-build of Paper Machine (PM-6) in terms of production of high value added products and energy management initiatives. The Company is still facing energy shortages as well as unfair competition in writing and printing paper segment from imported paper that is being sold at dumping prices in the local market.

Pursuant to recognition as Disposal Group, the management has recognised assets and liabilities of Paper & Paperboard and Corrugated businesses as 'Non-current assets held for sale and Discontinued operations' in terms of applicable financial reporting framework and re-measured the underlying assets and liabilities at the lower of carrying amount and fair value less costs to sell at the date of 'held for sale' classification and consequently has estimated a one-off non-cash charge of Rs. 2,457 million net of taxes at the interim

stage, which it has recognised in these interim financial statements for the period ended September 30, 2012 under International Financial Reporting Standards. This charge shall be re-assessed at the year-end and variations, if any, will be accordingly adjusted.

The management is fully confident that the operating results of Paper & Paperboard and Corrugated businesses will substantially improve through joint efforts of Stora Enso and local team.

The Joint Venture will provide Paperboard and Packaging Products to key local and international customers in the fast-growing Pakistani market. The Joint Venture will employ about 950 people and its sales are forecast to be USD 130 million in 2012.

As part of the Agreement, both parties are committed to a substantial USD 135 million investment program during 2013 and 2014 to further develop the business. To finance this investment program, Packages Limited shall contribute USD 18.5 million to the Joint Venture and these investments including a new alternate fuel based power plant will further improve the product quality, competitiveness and profitability of the operations. Annual production capacity of the Joint Venture is expected to be 360,000 tons of Paperboard upon completion of investments.

Meanwhile, the management is continuing its focus on Alternate Energy Project to reduce its energy costs and is expected to finalize the technical partners within next quarter. The Company is also actively pursuing its applications for fixation of anti-dumping duty and Import Trade Price (ITP) with National Tariff Commission (NTC) and the custom authorities to protect its products i.e. writing and printing paper against unfair competition offered by imported paper.

The production statistics for the period under review along with its comparison with the corresponding period are as follows:

	July - Sep	July - Sep	Jan - Sep	Jan - Sep
	2012	2011	2012	2011
Paper and Paperboard produced-tons	37,711	44,264	105,262	107,719
Paper and Paperboard converted-tons	20,543	19,355	61,336	60,855

Future Outlook

In respect of Continuing operations, Consumer Products Division is expected to re-gain its market share after re-commencement of production operations. With start-up of New Rotogravure Machine by the current year-end, the Company is likely to improve its market share in the Flexible Packaging business. Despite rising raw material prices, electricity and gas shortages, your Company is improving shareholder's value through tight cost control, product and process optimization, price rationalisation and efficient working capital management.

In respect of Paper & Paperboard and Corrugated Boxes businesses, we believe that the New Joint Venture shall bring considerable value to its shareholders and will meet Stora Enso's and Packages Limited joint return on investment targets.

We remain confident that the economy would improve in the future and the Company shall be able to maintain its market leadership.

Company's Staff and Customers

As we continue with our mission, we would like to record our appreciation of continued patronage of our valuable customers and sustained efforts of our employees.

PACKAGES LIMITED NOTES TO AND FORMING PART OF THE CONDENSED INTERIM FINANCIAL INFORMATION (UN-AUDITED)

for the quarter and nine months ended September 30, 2012

1. The Company and its activities

Packages Limited ('The Company') is a public limited company incorporated in Pakistan and is listed on Karachi, Lahore and Islamabad Stock Exchanges. It is principally engaged in the manufacture and sale of Paper, Paperboard, Packaging materials and Tissue Products.

During the current year, the Company has entered into a 50/50 Joint Venture agreement on September 17, 2012 with 'Stora Enso OYJ Group' ('Stora Enso') of Finland in its 100% wholly owned subsidiary Bulleh Shah Packaging (Private) Limited [formerly Bulleh Shah Paper Mill (Private) Limited] ('BSPL'). The Joint Venture will include Paper & Paperboard and Corrugated businesses operational at Kasur and Karachi and will involve initial equity participation of Stora Enso of 35% by way of subscription of right shares with a commitment to increase the shareholding to 50% at a later stage subject to certain conditions being met. The agreed value for 100% of the Joint Venture Company is USD 107.5 million on a cash and debt free basis with additional equity to be subscribed by Stora Enso through right shares in the Joint Venture Company of USD 17.5 million, based on the financial results of H2-2012 and H1-2013. Packages Limited shall continue to hold minimum 50% ownership and future profits of the Joint Venture.

As a result, the Company's operations have been divided into Continuing and Discontinued operations in accordance with the requirements of International Financial Reporting Standard (IFRS) 5, 'Noncurrent assets held for sale and Discontinued operations'. Paper and Paperboard and Corrugated businesses have been classified as Discontinued operations because these will form part of the Joint Venture. Continuing operations will include Folding Cartons, Flexible Packaging and Consumer Products businesses.

In accordance with the requirements of IFRS-5, the assets and liabilities of the Discontinued operations have been classified as 'held for sale' as reflected in note 16 of these financial statements. Upon subscription by Stora Enso in BSPL, Company shall derecognise its investment in BSPL owing to loss of control and recognise an investment in jointly controlled entity, with Stora Enso as the JV partner. In view of the above, assets and corresponding liabilities as are envisaged to be transferred to BSPL are classified as held for sale under IFRS-5. These assets and liabilities have been measured at lower of their respective carrying values and fair value less cost to sell and the resultant estimated charge has been recognised in the profit and loss account. The figures of the prior period have been represented in accordance with the requirements of IFRS-5, where relevant.

2. Basis of preparation

This condensed interim financial information is un-audited and has been prepared in accordance with the requirements of the International Accounting Standard (IAS) 34 - 'Interim Financial Reporting' and provisions of and directives issued under The Companies Ordinance, 1984. In case where requirements differ, the provisions of or directives issued under The Companies Ordinance, 1984 have been followed. This condensed interim financial information does not include all the information required for annual financial statements and therefore should be read in conjunction with the annual financial statements for the year ended December 31, 2011.

3. Significant accounting policies

3.1 The accounting policies adopted for the preparation of this condensed interim financial information are the same as those applied in the preparation of preceding annual published financial statements of the Company for the year ended December 31, 2011 except for the adoption of new accounting policies as referred to in note 3.2.1.

3.2 Initial application of standards, amendments or an interpretation to existing standards

The following amendments to existing standards have been published that are applicable to the Company's financial statements covering annual periods, beginning on or after the following dates:

3.2.1 Amendments to published standards effective in current year

New and amended standards, and interpretations mandatory for the first time for the financial year beginning January 1, 2012 and their impact on these condensed interim financial information is given below:

IFRS 1 (Amendment), 'First time adoption of IFRS' (effective July 1, 2011). These amendments include two changes to IFRS 1, 'First-time adoption of IFRS'. The first replaces references to a fixed date of January 1, 2004 with 'the date of transition to IFRSs', thus eliminating the need for entities adopting IFRSs for the first time to restate derecognition transactions that occurred before the date of transition to IFRSs. The second amendment provides guidance on how an entity should resume presenting financial statements in accordance with IFRSs after a period when the entity was unable to comply with IFRSs because its functional currency was subject to severe hyperinflation. The application of this amendment has no material impact on the Company's financial statements.

IFRS 7 (Amendments), 'Financial instruments: Disclosures'. These are applicable on accounting periods beginning on or after July 1, 2011. These amendments arise from the IASB's review of offbalance sheet activities. The amendments will promote transparency in the reporting of transfer transactions and improve users' understanding of the risk exposures relating to transfers of financial assets and the effect of those risks on an entity's financial position, particularly those involving securitisation of financial assets. The application of these amendments has no material impact on the Company's condensed interim financial information.

IAS 12 (Amendment), 'Income taxes'. These are applicable on accounting periods beginning on or after January 1, 2012. IAS 12, 'Income taxes', currently requires an entity to measure the deferred tax relating to an asset depending on whether the entity expects to recover the carrying amount of the asset through use or sale. It can be difficult and subjective to assess whether recovery shall be through use or through sale when the asset is measured using the fair value model in IAS 40, 'Investment property'. This amendment therefore introduces an exception to the existing principle for the measurement of deferred tax assets or liabilities arising on investment property measured at fair value. As a result of the amendments, SIC 21, 'Income taxes recovery of revalued non-depreciable assets', shall no longer apply to investment properties carried at fair value. The amendments also incorporate into IAS 12 the remaining guidance previously contained in SIC 21, which is withdrawn. The application of this amendment has no material impact on the Company's financial statements.

3.2.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company

The following amendments and interpretations to existing standards have been published and are mandatory for the Company's accounting periods beginning on or after January 1, 2013 or later periods, but the Company has not early adopted them:

Annual improvements to IFRSs 2011 (effective January 1, 2013). This set of amendments includes changes to five standards: IFRS 1, 'First time adoption of IFRS', IAS 1, 'Presentation of financial statements', IAS 16, 'Property plant and equipment', IAS 32, 'Financial instruments; Presentation' and IAS 34, 'Interim financial reporting'. The Company shall apply these amendments from January 1, 2013 and does not expect to have a material impact on its financial statements.

IFRS 1 (Amendment), 'First time adoption of IFRS', addresses how a first-time adopter would account for a government loan with a below-market rate of interest when transitioning to IFRS. It also adds an exception to the retrospective application of IFRS, which provides the same relief to first-time adopters granted to existing preparers of IFRS financial statements when the requirement was incorporated into IAS 20 in 2008. The Company shall apply this amendment from January 1, 2013 and does not expect to have a material impact on its financial statements.

IFRS 7 (Amendment), 'Financial Instruments: Disclosures', reflects the joint IASB and FASB requirements to enhance current offsetting disclosures. These new disclosures are intended to facilitate comparison between those entities that prepare IFRS financial statements and those that prepare US GAAP financial statements. The Company shall apply this amendment from January 1, 2013 and does not expect to have a material impact on its financial statements.

IFRS 9, 'Financial Instruments', addresses the classification, measurement and recognition of financial assets and financial liabilities. The standard is not applicable until January 1, 2015 but is available for early adoption. This is the first part of a new standard on classification and measurement of financial assets and financial liabilities that shall replace IAS 39, 'Financial instruments: Recognition and measurement'. IFRS 9 has two measurement categories: amortised cost and fair value. All equity instruments are measured at fair value. A debt instrument is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest. For liabilities, the standard retains most of the IAS 39 requirements. These include amortised-cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. This change shall mainly affect financial institutions. There shall be no impact on the Company's accounting for financial liabilities that are designated at fair value through profit or loss, and the Company does not have any such liabilities.

IFRS 12, 'Disclosures of Interests in Other Entities'. This is applicable on accounting periods beginning on or after January 1, 2013. This standard includes the disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. The Company shall apply this standard from January 1, 2013 and does not expect to have a material impact on its financial statements.

IFRS 13, 'Fair Value Measurement'. This is applicable on accounting periods beginning on or after January 1, 2013. This standard aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. The requirements, which are largely aligned between IFRSs and US GAAP, do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs or US GAAP. The Company shall apply this standard from January 1, 2013 and does not expect to have a material impact on its financial statements.

IAS 1 (Amendment), 'Presentation of Financial Statements'. This is applicable on accounting periods beginning on or after July 1, 2012. The main change resulting from these amendment is a requirement for entities to group items presented in Other Comprehensive Income (OCI) on the basis of whether they are potentially recycled to profit or loss (reclassification adjustments). The amendment does not address which items are presented in OCI. The Company shall apply this amendment from January 1, 2013 and does not expect to have a material impact on its financial statements.

IAS 19 (Amendment), 'Employee Benefits' is applicable on accounting periods beginning on or after January 1, 2013. The amendment shall eliminate the corridor approach and calculate finance costs

on a net funding basis. The Company shall apply this amendment from January 1, 2013 and its impact on retained earnings will be Rs. 452.369 million due to recognition of current unrealised actuarial losses on its defined benefit plans.

IAS 27 (Revised 2011), 'Separate Financial Statements' includes the provisions on separate financial statements that are left after the control provisions of IAS 27 have been included in the new IFRS 10. The revised standard is applicable for accounting periods beginning on or after January 1, 2013. The Company shall apply this standard from January 1, 2013 and does not expect to have a material impact on its financial statements.

IAS 32 (Amendment), 'Financial Instruments: Presentation' is applicable on accounting periods beginning on or after January 1, 2014. This amendment updates the application guidance in IAS 32, 'Financial instruments: Presentation', to clarify some of the requirements for offsetting financial assets and financial liabilities on the balance sheet. The Company shall apply this amendment from January 1, 2014 and does not expect to have a material impact on its financial statements.

- 4. The provision for taxation for the nine months ended September 30, 2012 has been made using the tax rate that would be applicable to expected total annual earnings.
- **5.** The preparation of interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this condensed interim financial information, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended December 31, 2011, with the exception of changes in estimates that are required in determining the provision for income taxes as referred to in note 4 and estimated loss on re-measurement of net assets of the Discontinued operations as referred to in note 16.1.

11. In 1987, the Income Tax Officer (ITO) re-opened the Company's assessments for the accounting years ended December 31, 1983 and 1984 disallowing primarily tax credit given to the Company under section 107 of the Income Tax Ordinance, 1979. The tax credit amounting to Rs. 36.013 million on its capital expenditure for these years was refused on the grounds that such expenditure represented an extension of the Company's undertaking which did not qualify for tax credit under this section in view of the Company's location. The assessments for these years were revised by the ITO on these grounds and taxes reassessed were adjusted against certain sales tax refunds and

the tax credits previously determined by the ITO and set off against the assessments framed for these years.

The Company had filed an appeal against the revised orders of the ITO before the Commissioner of Income Tax (Appeals) [CIT (A)], Karachi. The Commissioner, in his order issued in 1988, held the assessments reframed by the ITO for the years 1983 and 1984 presently to be void and of no legal effect. The ITO filed an appeal against the Commissioner's order with the Income Tax Appellate Tribunal (ITAT). The ITAT in its order issued in 1996 maintained the order of CIT (A). The assessing officer after the receipt of the appellate order passed by CIT (A), issued notices under section 65 of the Income Tax Ordinance, 1979 and the Company filed a writ petition against the aforesaid notices with the High Court of Sindh, the outcome of which is still pending.

The amount recoverable Rs. 36.013 million represents the additional taxes paid as a result of the disallowance of the tax credits on reframing of the assessments.

21. Financial risk management

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The condensed interim financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at December 31, 2011.

There have been no changes in the risk management policies since the year end.

22. Date of authorisation for issue

This condensed interim financial information was authorised for issue on October 20, 2012 by the Board of Directors of the Company.

23. Events after the balance sheet date

No material events have occurred subsequent to September 30, 2012.

24. Corresponding figures

In order to comply with the requirements of International Accounting Standard 34 - 'Interim Financial Reporting', the condensed interim balance sheet and condensed interim statement of changes in equity have been compared with the balances of annual audited financial statements of preceding financial year, whereas, the condensed interim profit and loss account, condensed interim statement of comprehensive income and condensed interim cash flow statement have been compared with the balances of comparable period of immediately preceding financial year.

Corresponding figures have been re-arranged and re-classified, wherever necessary, for the purposes of comparison as a result of the material event impacting the Company as explained in note 1 to these financial statements.

Packages Group Condensed Consolidated Interim Financial Information

DIRECTORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2012

إِنَّهُ الْجَمَٰ الْجَيْمِ

The Directors of Packages Limited are pleased to present the un-audited consolidated financial statements of the Group for the nine months ended September 30, 2012.

Group results

The comparison of the un-audited results for the nine months ended September 30, 2012 as against September 30, 2011 is as follows: Jan - Sep

	2012	2011	
	(Rupees in million		
Net Sales	10,325	10,544	
Profit from operations - Continuing operations	917	1,231	
Share of profit of associates - net	143	202	
Reversal of impairment charged on investments	456	-	
Investment income	784	509	
Profit after tax - Continuing operations	1,501	240	
Loss on re-measurement of Disposal Group - net	(2,457)	-	
Operating loss after tax - Discontinued operations	(756)	(1,148)	

During the first nine months of the year 2012, Continuing operations of the Group have achieved net sales of Rs. 10,325 million against net sales of Rs. 10,544 million of corresponding period of last year. Continuing operations have generated operating profit of Rs 917 million during nine months of 2012 against Rs. 1,231 million generated during corresponding period of 2011.

The Parent Company has also recognised reversal of impairment amounting to Rs. 456 million during first nine months of 2012 on its investments held in IGI Insurance Limited and IGI Investment Bank Limited on the basis of recovery in recoverable amount of these investments.

Investment income has also increased by Rs. 275 million during first nine months of 2012 over corresponding values of 2011 that is indicative of improved operational performance of the investee companies.

During the current year, the Parent Company has entered into a 50/50 Joint Venture agreement on September 17, 2012 with 'Stora Enso OYJ Group' (Stora Enso) of Finland in its 100% wholly owned subsidiary Bulleh Shah Packaging (Private) Limited [formerly Bulleh Shah Paper Mill (Private) Limited] ('BSPL'). The Joint Venture will include Paper & Paperboard and Corrugated businesses operational at Kasur and Karachi and will involve initial equity participation of Stora Enso of 35% by way of subscription of right shares with a commitment to increase the shareholding to 50% at a later stage subject to certain conditions being met. The Parent Company shall continue to hold minimum 50% ownership and future profits of the Joint Venture.

As a result, the Group results have been divided into Continuing and Discontinued operations in accordance with the requirements of applicable financial reporting framework. The assets and liabilities of the Discontinued operations have been classified as "Non-current assets Held for Sale and Discontinued operations". Upon subscription by Stora Enso in BSPL, the Parent Company shall derecognise its investment in BSPL owing

to loss of control and recognise an investment in jointly controlled entity, with Stora Enso as the JV partner. Therefore, assets and corresponding liabilities as are envisaged to be transferred to BSPL have been measured at lower of their respective carrying values and fair value less cost to sell and the resultant estimated one-off non-cash charge of Rs. 2,457 million net of taxes has been recognised in these interim consolidated financial statements for the period ended September 30, 2012. This charge shall be re-assessed at the year-end and variations, if any, will be accordingly adjusted.

A brief review of the operational performance of the Group subsidiaries is as follows:

DIC PAKISTAN LIMITED

DIC Pakistan Limited is a non-listed public limited subsidiary of Packages Limited. It is principally engaged in manufacturing, processing and selling of industrial inks. The Company has achieved net sales of Rs. 1,583 million during the nine months of 2012 as compared to Rs. 1,426 million of the corresponding period of last year representing sales growth of 11%. The Company has generated profit before tax of Rs. 90 million during nine months of 2012 as against Rs. 128 million generated during corresponding period of 2011. The decrease in profitability is mainly due to increase in raw material prices that have not been fully passed on to the customers. The management is confident of maintaining margins through product diversification, price revisions and reduction in operating costs in the coming months.

PACKAGES LANKA (PRIVATE) LIMITED

Packages Lanka (Private) Limited is a Sri Lanka based subsidiary of Packages Limited. It is primarily engaged in production of flexible packaging solutions. The Company has achieved turnover of SLR 1,066 million during nine months of 2012 as compared to SLR 1,048 million for the corresponding period of 2011. The Company has generated profit before tax of SLR 81 million during the nine months of 2012 as against SLR 73 million for the corresponding period of 2011. With installation of new printing line in the coming months, the management is confident of consolidating its market share in the increasingly competitive local market.

PACKAGES GROUP NOTES TO AND FORMING PART OF THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (UN-AUDITED)

for the guarter and nine months ended September 30, 2012

1. Legal status and nature of business

Packages Limited (the Parent Company) and its subsidiaries, DIC Pakistan Limited, Packages Lanka (Private) Limited, Packages Construction (Private) Limited and Bulleh Shah Packaging (Private) Limited [formerly Bulleh Shah Paper Mill (Private) Limited] (together, 'the Group') are engaged in the following businesses:

Packaging: Representing manufacture and sale of Paper, Paperboard, Packing materials and Tissue products

Inks: Representing manufacture and sale of finished and semi finished inks. Construction: Representing all type of construction activities and development of real estate.

During the current year, the Parent Company has entered into a 50/50 Joint Venture agreement on September 17, 2012 with 'Stora Enso OYJ Group' ('Stora Enso') of Finland in its 100% wholly owned subsidiary Bulleh Shah Packaging (Private) Limited [formerly Bulleh Shah Paper Mill (Private) Limited] ('BSPL'). The Joint Venture will include Paper & Paperboard and Corrugated businesses operational at Kasur and Karachi and will involve initial equity participation of Stora Enso of 35% by way of subscription of right shares with a commitment to increase the shareholding to 50% at a later stage subject to certain conditions being met. The agreed value for 100% of the Joint Venture company is USD 107.5 million on a cash and debt free basis with additional equity to be subscribed by Stora Enso through right shares in the Joint Venture company of USD 17.5 million, based on the financial results of H2-2012 and H1-2013. The Parent Company shall continue to hold minimum 50% ownership and future profits of the Joint Venture.

As a result, the operations have been divided into Continuing and Discontinued operations in accordance with the requirements of International Financial Reporting Standard (IFRS) 5, 'Non-current assets held for sale and Discontinued operations'. Paper and Paperboard and Corrugated businesses have been classified as Discontinued operations while Continuing operations will include Packaging, Consumer Products and Ink Division.

In accordance with the requirements of IFRS-5, the assets and liabilities of the Discontinued operations have been classified as 'held for sale' as reflected in note 16 of these financial statements. Upon subscription by Stora Enso in BSPL, Parent Company shall derecognise its investment in BSPL owing to loss of control and recognise an investment in jointly controlled entity, with Stora Enso as the JV partner. In view of the above, assets and corresponding liabilities as are envisaged to be transferred to BSPL are classified as 'held for sale' under IFRS-5. These assets and liabilities have been measured at lower of their respective carrying values and fair value less cost to sell and the resultant estimated charge has been recognised in the profit and loss account. The figures of the prior period have been represented in accordance with the requirements of IFRS-5, where relevant.

2. Basis of preparation

This condensed consolidated interim financial information is un-audited and has been prepared in accordance with the requirements of the International Accounting Standard (IAS) 34 - 'Interim Financial Reporting' and provisions of and directives issued under The Companies Ordinance, 1984. In case where requirements differ, the provisions of or directives issued under The Companies Ordinance, 1984 have been followed. This condensed interim financial information does not include all the information required for annual financial statements and therefore should be read in conjunction with the annual financial statements for the year ended December 31, 2011.

3. Significant accounting policies

3.1 The accounting policies adopted for the preparation of this condensed consolidated interim financial information are the same as those applied in the preparation of preceding annual published financial statements of the Group for the year ended December 31, 2011 except for the adoption of new accounting policies as referred to in note 3.2.1.

3.2 Initial application of standards, amendments or an interpretation to existing standards

The following amendments to existing standards have been published that are applicable to the Group's financial statements covering annual periods, beginning on or after the following dates:

3.2.1 Amendments to published standards effective in current year

New and amended standards, and interpretations mandatory for the first time for the financial year beginning January 1, 2012 and their impact on this condensed consolidated interim financial information is given below:

IFRS 1 (Amendment), 'First time adoption of IFRS' (effective July 1, 2011). These amendments include two changes to IFRS 1, 'First-time adoption of IFRS'. The first replaces references to a fixed date of January 1, 2004 with 'the date of transition to IFRSs', thus eliminating the need for entities adopting IFRSs for the first time to restate derecognition transactions that occurred before the date of transition to IFRSs. The second amendment provides guidance on how an entity should resume presenting financial statements in accordance with IFRSs after a period when the entity was unable to comply with IFRSs because its functional currency was subject to severe hyperinflation. The application of this amendment has no material impact on the Group's financial statements.

IFRS 7 (Amendments), 'Financial instruments: Disclosures'. These are applicable on accounting periods beginning on or after July 1, 2011. These amendments arise from the IASB's review of offbalance sheet activities. The amendments will promote transparency in the reporting of transfer transactions and improve users' understanding of the risk exposures relating to transfers of financial assets and the effect of those risks on an entity's financial position, particularly those involving securitisation of financial assets. The application of these amendments has no material impact on the Group's condensed interim financial information.

IAS 12 (Amendments), 'Income taxes'. These are applicable on accounting periods beginning on or after January 1, 2012. IAS 12, 'Income taxes', currently requires an entity to measure the deferred tax relating to an asset depending on whether the entity expects to recover the carrying amount of the asset through use or sale. It can be difficult and subjective to assess whether recovery shall be through use or through sale when the asset is measured using the fair value model in IAS 40, 'Investment property'. This amendment therefore introduces an exception to the existing principle for the measurement of deferred tax assets or liabilities arising on investment property measured at fair value. As a result of the amendments, SIC 21, 'Income taxes - recovery of revalued non-depreciable assets', shall no longer apply to investment properties carried at fair value. The amendments also incorporate into IAS 12 the remaining guidance previously contained in SIC 21, which is withdrawn. The application of this amendment has no material impact on the Group's financial statements.

3.2.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group

The following amendments and interpretations to existing standards have been published and are mandatory for the Group's accounting periods beginning on or after January 1, 2013 or later periods, but the Group has not early adopted them:

Annual improvements to IFRSs 2011 (effective January 1, 2013). This set of amendments includes

changes to five standards: IFRS 1, 'First time adoption of IFRS', IAS 1, 'Presentation of financial statements', IAS 16, 'Property plant and equipment', IAS 32, 'Financial instruments; Presentation' and IAS 34, 'Interim financial reporting'. The Group shall apply these amendments from January 1, 2013 and does not expect to have a material impact on its financial statements.

IFRS 1 (Amendment), 'First time adoption of IFRS', addresses how a first-time adopter would account for a government loan with a below-market rate of interest when transitioning to IFRS. It also adds an exception to the retrospective application of IFRS, which provides the same relief to first-time adopters granted to existing preparers of IFRS financial statements when the requirement was incorporated into IAS 20 in 2008. The Group shall apply this amendment from January 1, 2013 and does not expect to have a material impact on its financial statements.

IFRS 7 (Amendment), 'Financial instruments: Disclousures', reflects the joint IASB and FASB requirements to enhance current offsetting disclosures. These new disclosures are intended to facilitate comparison between those entities that prepare IFRS financial statements and those that prepare US GAAP financial statements. The Group shall apply this amendment from January 1, 2013 and does not expect to have a material impact on its financial statements.

IFRS 9, 'Financial instruments', addresses the classification, measurement and recognition of financial assets and financial liabilities. The standard is not applicable until January 1, 2015 but is available for early adoption. This is the first part of a new standard on classification and measurement of financial assets and financial liabilities that shall replace IAS 39, 'Financial instruments: Recognition and measurement'. IFRS 9 has two measurement categories: amortised cost and fair value. All equity instruments are measured at fair value. A debt instrument is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest. For liabilities, the standard retains most of the IAS 39 requirements. These include amortised-cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. This change shall mainly affect financial institutions. There shall be no impact on the Group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss, and the Group does not have any such liabilities.

IFRS 10 - 'Consolidated financial statements'. The objective of IFRS 10 is to establish principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements. The standard provides additional guidance to assist in determining control where this is difficult to assess. This new standard might impact the entities that a group consolidates as its subsidiaries. The Group shall apply this standard from January 1, 2013 and does not expect to have a material impact on its financial statements.

IFRS 11 - 'Joint arrangements'. IFRS 11 is a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement rather than its legal form. There are two types of joint arrangement: joint operations and Joint Ventures. Joint operations arise where a joint operator has a right to the assets and obligations relating to the arrangement and hence accounts for its interest in assets, liabilities, revenues and expenses. Joint Ventures arise where the joint operator has rights to the net assets of the arrangement and hence equity accounts for its interest. Proportional consolidation of Joint Ventures is no longer allowed. The application of this standard has no material impact on the Group's financial statements.

IFRS 12 - 'Disclosures of interests in other entities'. This is applicable on accounting periods beginning on or after January 1, 2013. This standard includes the disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. The Group shall apply this standard from January 1, 2013 and does

not expect to have a material impact on its financial statements.

IFRS 13 - 'Fair value measurement'. This is applicable on accounting periods beginning on or after January 1, 2013. This standard aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. The requirements, which are largely aligned between IFRSs and US GAAP, do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs or US GAAP. The Group shall apply this standard from January 1, 2013 and does not expect to have a material impact on its financial statements.

IAS 1 (Amendments), 'Presentation of Financial Statement'. This is applicable on accounting periods beginning on or after July 1, 2012. The main change resulting from this amendment is a requirement for entities to group items presented in Other Comprehensive Income (OCI) on the basis of whether they are potentially recycled to consolidated profit and loss account (reclassification adjustments). The amendment does not address which items are presented in OCI. The Group shall apply this amendment from January 1, 2013 and does not expect to have a material impact on its financial statements.

IAS 19 (Amendments), 'Employee benefits' is applicable on accounting periods beginning on or after January 1, 2013. The amendment shall eliminate the corridor approach and calculate finance costs on a net funding basis. The Group shall apply this amendment from January 1, 2013 and its impact on retained earnings shall be Rs. 452.369 million due to recognition of current unrealised actuarial losses on its defined benefit plans.

IAS 27 (Revised 2011), 'Separate financial statements' includes the provisions on separate financial statements that are left after the control provisions of IAS 27 have been included in the new IFRS 10. The revised standard is applicable for accounting periods beginning on or after January 1, 2013. The Group shall apply this standard from January 1, 2013 and does not expect to have a material impact on its financial statements.

IAS 28 (Revised 2011), 'Associates and Joint Ventures' includes the requirements for Joint Ventures, as well as associates, to be equity accounted following issue of IFRS 11. The Group shall apply this standard from January 1, 2013 and does not expect to have a material impact on its financial statements.

IAS 32 (Amendment), 'Financial Instruments: Presentation' is applicable on accounting periods beginning on or after January 1, 2014. This amendment updates the application guidance in IAS 32, 'Financial instruments: Presentation', to clarify some of the requirements for offsetting financial assets and financial liabilities on the balance sheet. The Group shall apply this amendment from January 1, 2014 and does not expect to have a material impact on its financial statements.

- 4. The provision for taxation for the nine months ended September 30, 2012 has been made using the tax rate that would be applicable to expected total annual earnings.
- 5. The preparation of interim consolidated financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended December 31, 2011, with the exception of changes in estimates that are required in determining the provision for income taxes as referred to in note 4 and estimated loss on re-measurement of net assets of the Discontinued operations as referred to in note 15.1.

9. Income tax receivable includes Rs. 36.013 million which represents the additional taxes paid as a result of the disallowance of the tax credits on reframing of the assessments.

In 1987, the Income Tax Officer (ITO) re-opened the Parent Company's assessments for the accounting years ended December 31, 1983 and 1984 disallowing primarily tax credit given to the Group under section 107 of the Income Tax Ordinance, 1979. The tax credit amounting to Rs. 36.013 million on its capital expenditure for these years was refused on the grounds that such expenditure represented an extension of the Parent Company's undertaking which did not gualify for tax credit

under this section in view of the Parent Company's location. The assessments for these years were revised by the ITO on these grounds and taxes reassessed were adjusted against certain sales tax refunds and the tax credits previously determined by the ITO and set off against the assessments framed for these years.

The Parent Company had filed an appeal against the revised orders of the ITO before the Commissioner of Income Tax (Appeals) [CIT(A)], Karachi. The Commissioner, in his order issued in 1988, held the assessments reframed by the ITO for the years 1983 and 1984 presently to be void and of no legal effect. The ITO filed an appeal against the Commissioner's order with the Income Tax Appellate Tribunal (ITAT). The ITAT in its order issued in 1996 maintained the order of CIT(A). The assessing officer after the receipt of the appellate order passed by CIT (A), issued notices under section 65 of the Income Tax Ordinance, 1979 and the Parent Company filed a writ petition against the aforesaid notices with the High Court of Sindh, the outcome of which is still pending.

In respect of continuing operations, diluted EPS is restricted to the basic EPS in cases where effect of the conversion of preference shares / convertible stock is anti-dilutive.

The diluted loss per share of Discontinued operations is the same as the basic loss per share of Discontinued operations as there are no convertible instruments attributable to the Discontinued operations.
